

Build your network. Build *what you love* into a real business. Get solid with the math to run it.

Athletes build their NIL. Founders, a company. Makers, a studio. Scholars, a research lab. Givers, a cause. At The 120, every kid turns what they love into the real thing behind it, with the network to build it alongside and the math to run the numbers.

120 kids. Five groups. Ages 8–17. Toronto. One network, capped at 120 seats, on purpose.

WHAT YOU'LL DO
THIS YEAR

20 weekend workshops to build a real business, and get solid with math to be able to run the numbers.

FIVE GROUPS • ONE NETWORK

The Athletes. Train seriously, compete seriously, think like a pro.

The Founders. Start something real: customers, revenue, lessons learned.

The Makers. Art, film, music, invention. A real body of work, shipped.

The Scholars. Accelerated, mastery-based academics with no ceiling.

The Givers. Lead real service. Projects that change a corner of the city.

MEMBERSHIP • THREE THINGS

- 01 A Tin Can + the Address Book.** A screen-free "bat phone" to 119 other kids building interesting lives, across all five groups.
- 02 Build your business.** Across 20 weekend workshops, your child builds an actual venture in their domain: Athletes build an NIL business. Founders build a startup. Makers build art, theatre or music shows. Scholars and Givers build research or community service organizations.
- 03 Get solid with math.** Mastery-based math acceleration, no ceiling. The numbers sense to run what they build. Members routinely learn at ~3× classroom pace.

TWO WAYS IN

MEMBERSHIP

\$3,000 CAD/yr

Most families

- Tin Can + Address Book
- A real business, across 20 workshops
- Mastery-based math acceleration
- Virtual cohorts + community events

FULL ACADEMIC CORE

\$15,000 CAD/yr

All-in academic core

- Everything in Membership, plus:
- 5 hrs/week AI-adaptive academics, 1–3 subjects
- Bi-weekly 1:1 with an Academic Advisor
- Supports Ontario homeschool registration

Prices in CAD. HST-exempt education services. No add-ons, no surprises. The device, all mentorship, the platform, and all 20 weekend workshops are in the price.

HOW IT WORKS

- 01 Create an account and build the dossier.** Your child's group, interests, and a pitch for what they'll build, in their own words.
- 02 Book a call.** We review the dossier together and qualify the fit, group by group.
- 03 Join the group.** A seat, a Tin Can, a mentor, and a real business to build across the year.

Admission first. Tuition applies only after your child qualifies: dossier review, then the qualifying assessment. No payment until a seat is offered.

RESERVE THE SEAT

\$250, fully refundable until September 30, 2026 • per child, only once a seat is offered.

The only thing you can lose is the seat.

"The biggest surprise was that my boys actually wanted to do extra work. They stayed up late doing more lessons, a first for us."

IAN LOGAN • TORONTO PARENT

"Earning XPs for an end reward was very motivating... the focus shifts to intrinsic motivators as kids get older."

GORDON MCKAY • TORONTO PARENT

In ~5 weeks, the founder's Grade-4 son moved up multiple grade levels in math, science, English and vocabulary. "The progress is palpable."

PETER KUPERMAN • FOUNDER

START AT [THE120.SCHOOL](https://the120.school) → • BOOK A CALL: [CAL.COM/PETER.K/THE120](https://cal.com/peter.k/the120) • [ADMISSIONS@THE120.SCHOOL](mailto:admissions@the120.school)

Experiences shown are from families on the 2 Hour Learning network platform behind The 120's academics, shared with permission; not claimed as The 120's own outcomes. Founding cohort closes when the groups fill.
