

The 120 — One-Page Explainer

Week-1 GTM asset (sprint §6). Draft copy pulled from the live site (home, /tuition, /parents) and `app/Lib/site.ts` — all facts match production. Convert to a branded one-page PDF (the `make-pdf` skill will do it). Keep it to one side of a page.

THE 120

BUILD A NETWORK. TOP 1% ACADEMICS. SUPER INTERESTING PROJECTS.

120 kids. Five groups. Ages 8–17. Toronto. Founding cohort, Fall 2026.

Toronto's most motivated and engaged kids — athletes, founders, makers, scholars, givers — building interesting lives together. One network, capped at 120 seats, on purpose.

THE FIVE GROUPS

- **The Athletes** — train seriously, compete seriously, think like a pro.
 - **The Founders** — start something real: customers, revenue, lessons learned.
 - **The Makers** — art, film, music, invention. A real body of work, shipped.
 - **The Scholars** — accelerated, mastery-based academics with no ceiling.
 - **The Givers** — lead real service. Projects that change a corner of the city.
-

MEMBERSHIP IS THREE THINGS

1. **A Tin Can + the Address Book.** A screen-free “bat phone” to 119 other kids building interesting lives, across all five groups.
2. **One year-long project, shipped.** A season record, a company, a body of work, a research study, a service program — mentored, milestone-driven, and demoed live at the quarterly Toronto intensives.

3. **Get super advanced in one subject. Or two.** Personalized academic acceleration, mastery-based, no ceiling. Members routinely learn at ~3× the pace of a traditional classroom in their chosen subject.

WHAT IT COSTS

	Membership	Full Academic Core
Price	\$3,000 CAD / year	\$15,000 CAD / year
For	Most families	All-in academic core
Includes	Tin Can + Address Book · one year-long mentored project · math acceleration through Math Academy · all four Toronto intensives · virtual cohorts + community events	Everything in Membership, plus 5 hrs/week of AI-adaptive, mastery-based academics across 1–3 subjects of your choice · bi-weekly 30-min 1:1 with an expert Academic Advisor · supports Ontario homeschool registration

Prices in CAD. HST-exempt education services. No add-ons, no surprises — the device, all mentorship, the platform, and all four intensives are in the price.

HOW IT WORKS

1. **Create an account and build the dossier** — your child's group, interests, and a project pitch in their own words.
2. **Book a call** — we review the dossier together and qualify the fit, group by group.
3. **Join the group** — a seat, a Tin Can, a mentor, and a year-long project that ships.

Admission first. Tuition applies only after your child qualifies: dossier review, then the qualifying assessment. No payment until a seat is offered.

RESERVE THE SEAT — \$250, FULLY REFUNDABLE

Once a seat is offered, hold it with a **\$250 deposit, per child, fully refundable until September 30, 2026.**

The only thing you can lose is the seat.

THE QUARTERLY TORONTO INTENSIVES

Fall **Nov 7–8, 2026** · Winter **Jan 30–31, 2027** · Spring **Apr 3–4, 2027** · Summer **Jun 12–13, 2027**. Every kid demos real work; parents attend.

WHY FAMILIES ARE JOINING

Three Toronto families on the learning platform behind The 120's academics, in their own words (*shared with permission; experiences on the platform, not claimed as The 120's own outcomes*):

- *"The biggest surprise was that my boys actually wanted to do extra work. They stayed up late doing more lessons — a first for us."* — **Ian Logan**, Toronto parent
 - *"Earning XPs for an end reward was very motivating... we were assured the focus shifts to more sustainable intrinsic motivators as kids get older."* — **Gordon McKay**, Toronto parent
 - In ~5 weeks, founder Peter Kuperman's Grade-4 son moved up multiple grade levels across math, science, English, and vocabulary. *"The progress is palpable."*
-

Start at the120.school · Book a call: cal.com/peter.k/the120 · Questions: admissions@the120.school

120 seats total — the live seat count is on the site. Founding cohort closes when the groups fill.
